# PULLMAN AND BELLAMY.

The Commission appointed by the President to find out all about the Pullman strike has commenced briskly, and promses to find out not ony all about the Pullman strike, but all about everything sise. It has permitted itself to listen to the views, theories and suggestions of the most eminent political economist sociologists and savants of Chicago, and it is needless to say that these experts have contributed information with a kindness which knows no bounds. If the Commission can only remain in session three or four thousand years it will have chance of knowing as much about the Pullman strike and other things as is known by the Chicago philosophers.

Without waiting for the full evidence ophers have finished talking we may interject a suggestion that the expert who George Hawtrey assumes the role assoproposed Bellamyism as a remedy for ullmanism was off his base.

Pullman's town is not exactly Bellamy's town, but it is as near an approach to it as the world has ever seen or is ever likely to see. The main difference between them consists chiefly in that wide margin which always divides theory from practice, and contrasts the hard facts of real life with the pleasant vistons of dreamland.

The spectacle of a grave Commission. representing the authority of the Gov-ernment of the United States, soberly istening to a Chicago philosopher who suggests the adoption of Bellamyism as remedy for Pullmanism turns a sad story into "a cause of innocent merrision as to any harsh feeling growing out of the investigation. The worst that

# IN TIME OF SAFETY, PREPARE.

Europe again has an anxious eye on points where cholers has made its ap-pearance. Austria is disquieted. Some of her soldiers of the Cracow garrison have been prostrated by the disease at Bielits. In Holland, cases of cholers are reported in several cities and districts. St. Petersburg and other Russian places are experiencing severe attacks from the plague. Emperor William has counternanded the orders for army manoeuvres n East Prussis, owing to the threatenings of cholers. And finally, a fatal case of the dread disease has been reported at Battersea, a part of London.

All this is of vital interest to the United States. It is now late in the Summer, and, as not even a suspicious case has thus far made its appearance on this side, it is possible, and also probfor this season. Nevertheless, the watch points where the plague might force its entrance is to be kept up vigiantly. And the country must be on guard not alone for the balance of this eason, but just as sharply for next Summer. It is not too early to impress the importance of having all precautionary measures in full force when the coming Winter closes.

Cholera germs have a great capacity in the way of lying dormant during the nths and springing into full life with the coming of warmer weather. It will be the duty of the quarantine and sanitary authorities of the country, at all ports of entry, to keep a sharp eye on the European danger points now and upon what comes from them next Spring and Summer.

# THE NEW RECORD.

America's admiration for the Campania's ocean-breaking record is not at all lessened by the reflection that the Campania is the product of British brains, skill and capital, and that her rich earnings go into British pockets. We do not follow English example in grudging praise to a successful rival, and the latest triumph of English shipbuilding is admired as heartily in New

York as in Liverpool. The Campania is the fastest steamer that crosses the ocean, and the fastest of modern vessels is dangerous. The truth is that in order to attain this great speed the vessel must be so strongly constructed and so perfectly designed as to reduce every element of danger to a minimum. The only possible danger to such a vessel as the Campania is a collision, which would be equally dangerous to any other vessel; all other possibilities of disaster

have been practically abolished. The new time record fixes the future of the ocean ferry. These steamers are built chiefly for the use of Americans. Now that it has been proved that the American who has no time to lose can breakfast in Queenstown on Sunday and take his dinner in New York on Friday, we shall expect to see this made the regular time for future competitors for our custom.

much more life in the body than at morning or night.

When the child was brought to court this morning it was with difficulty that its breathing could be heard. By 10 o'clock, however, it had livened up and could cry so it could be heard at a distance of five feet.

Agent King first saw the child last Wednesday morning, at its home. He saw no one there but an old woman. At first she denied there was a child there, but in a few moments she went over to a corner of the room and picked up the baby and held it up by the legs. He ordered her to procure medical attention at once. This order was not heeded.

# Finite and Infinite.

To the Editor: Mr. Wiseacre, J. S. Stowell, full of wisdom and truly Christian meskness, lords it, with the method characteristic of "Reva." and "D. Da.," nistakes the troubled, dying spirit's last flicke as a warning to sceptics and infidels be wastes

Your "Reva." and "D. Da." are too transparent and have been found out long ago. Already during Paine's and Voltaire's time your claws and fangs were drawn from you, and your fuming and retting did not scare those lions a bit kicking them and the fangless serpents hissing at their names.

An old story: In the Summer of 1877 Robert

G. Ingersoll visited the Pacific coast, delivering

e Fourth of July oration at Badger's Park, Oakland, and speaking to an overflowing house in the Grand Opera-House, San Francis The ministers were as quiet as mice during Ingersoll's sojourn in 'Frisco. No sooner had the onel started for the East but the clattering arnival was heard, recounding from the walls o "God's houses"-for the great enemy of the But "the cat came back," and be "reviewed his reviewers' before an assemblage that fairly tested the capacity of the Grand Opera-The mice had subsided once more, perhaps hold ing conclave to draw lots as to which on hould hang a bell around their enemy's neck, which might give them more timely warning. I suppose when the shades of life's evening

G. Ingersell the natural death-thross of the edoubtable Colonel will be held up by the bright udent of Crozier Theological Seminary as a warning example." Great is the polished brass that issues from Reva." and "D. Da." But the "late" Voltaire

# Husbands and Wives To the Editor: M. A. Reid is right as far as he goes, but it seems he lacks courage to carry out his con-viction, or dares not or is incapable of expressing it, and is, furthermore, a little bit one-sided withal. He should say, "The so-called happy marriages are those where either one or

the other is the slave, sometimes the 'husband,' cometimes the 'wife.' ossoms! Carrying out his conviction to its logical conclusion, rightly interpreted, would signify that marriage pure and simple is a fasture, and ought to be, and soon will be, by all who can brush the cobwebs of dying be-lief and superstition from their moral, spiritual and physical eyes, relegated to that lumber where are stored the relics of barbarisms

obsolete forms sant substance. Though marriage is a failure, love, the sprightly and buoyant bow-boy, is a living reality that nothing will ever daunt, least of all the vain ceremonies of Church and State; and neither Church nor State, by their abominable bungling achinery of interference in love affairs, can give a new lease of life to the little god once And here we have what we may rightly call

he living death; men and women striving with ill their might, on account of stupid vows once nade, to live the life of death over the corpse mes a violent one; sometimes poisoned by the vile venom of jeniousy, deceit, brutality and tyranny. Love needs free range to be wholeome: free range should be the test, without peremonies mumbled by hypocrisy and superst tion. True, there would be no "marriages" then, but love's relations are only for the intelligent and sovereign mind, not for adult to break them.

# Another Cigarette Fiend.

o the Editor: I am one of the eigarette flends, and I would like very much to have some reader of 'The Evening World' tell me how to break myself of Every night I make up my mnid that I will

not smoke another cigarette, and every morning after breakfast I feel as if I had to have one, and in the Winter time if I catch sold I really want to stop this permittous habit, but

been a cigarette fiend and stopped it would tel me bow they did it.

# Force is Everything. To the Editor: S. O. Blunden says that "elernal punishmen

apends not on resurrection, but on natural im-mortality." This it not quite true. The spirit does not suffer; the hody does. Force is the spirit or life of body or matter; without force

Available Elements of Food.

It must not be supposed for an inin milk are often far more valuable, in 1 000, the following table shows the comparative nutrition in foods: Cucum-bers, 28, melons, 30; turnips, 41; milk, 72; carrots, 96; white of egg, 140; beet root, 148; pears, 160; apples, 170; haddock, 180; gooseberries, 200; codfish, 210; sole, 210; cherries, 250; beef, 260; potatoes, 260; apricots, 260; grapes, 270; chicken, 270; plums, 290; mutton, 290; rye, 792; rice, 880; barley, 920; wheat, 950.

# Our Shop-Girls Have Chairs.

Those notoriety-hungry women should e careful about "writing up" and talking down New York dry-goods merfind seats behind every counter in every successful establishment in the city. It is to the advantage of capital to treat abor with consideration, and in no sec tion of the commercial world are the aleswomen and stock girls f New York.

One firm uptown was fearfully arraigned by a protective league last spring for "not having a seat in the whole house." It transpired that there were \$900 worth of folding-seats hinged to the stock fixtures of the different de partments, but the ladies either could not or would not see them. Diet for Washed-Out Blondes.

Those pale little women, with straw

olored complexions, skeleton figures. soonlight eyelashes and prominen shoulder blades and elbows need nursing. Like the convalescents, they should be sunned and aired daily, given sleepinducing warm baths, and built up on those invalid foods that are all nourish ment and no tax on the digestive or gans. Here, for example, is a flesh blood and brain maker. Mix a tablespoonful of oaten meal with enough water to make a smooth paste; pour into a pint of boiling water and cook slowly for half an hour, stirring it all the while to prevent scorching. Season with spices, salt or sugar and a table spoonful of wine or good brandy. Cut off the tea and coffee and drink sweet milk, with a teaspoonful of French brandy to a glass.

A Very Good Brenkfast

Beiled Rice. Powdered Sugar. Fried Ham. Brotled Apples. Rolls.

Coffee.

Note.—Sweet cream, which is rich in fats, agrees with many persons who camnot digest milk. Some of those choice 
panut-fed, honey-cured hams, that cost 
35 cents a pound are too precious to broil, 
the loss being greater on a grill than a 
pan. Have the butcher cut it like chipbeef and fry on a quick fire. Serve with 
thick slices of sweet apples.

Cooks and the Complexion. Professional cooks have cures for bad complexions that cure, which is more than can be said for the professional complexion restorers. The point to be borne in mind is this: If the digestion i all right the complexion will be about

the same. People who have work to de and duties to perform must eat, but in the round of vacation and recreation it is a capital idea to change the diet, or better still, give the organs an occasional day off. Instead of a feast make a fast of Sunday. Get back to the regular diet by degrees-breakfast on bread GIOVANNI VOLTA, Brooklya. and milk, lunch on vegetable soup or a old-fashioned lard are all excellent. If o'clock and dine on beef tea and black day, it will be clean, and the hair will toast. These are highly nutritious articles and may be made very agreeable.

### They will comfort the stomach complexion will proclaim the fact. Dental Toilet Accessories.

Dental floss sells at 7 cents a spool A teaspoonful of toilet-water in a goblet of cool water is a good disinfectant and perfume for the mouth.

Some fastidious people pue scent on their lips. The grand dames of France it is fresh and in perfect condition put a few drops of the costly Spanish Everything which has begun to deteriviolets in a wineglass of water and orate in quality is a source of danger This perfumes the whole red lane-provided the tongue and teet! are clean. Children who tell fibs have their

sweet little mouths washed with carbotic soap. The same treatment is recommended, occasionally, for grown children.

Used judiciously, listerine is a peer-

A Reasonable Hair Tonic.

Scalps wear out. Like farms in the old world they get exhausted and need rest. Those that are not too far gone may be enriched and made productive. If the following tonic does not make luxuriant growth of hair, it certainly will not extend the bald spot .: Tincture of cantharides ...... 3 ounces

Giycerine .....3 ounces Bay rum ...... ounces Aromatic spirits of ammonia....1 ounce The cantharides is a preparation of Spanish files, and has the virtue drawing well, the ammonia will help to stimulate the scalp; the glycerine soothe, heal and nourish, and the bay rum will invigorate, and, at the same time, cleanse. Use daily for two weeks and then semi-weekly. It should

rubbed into the scalp and then taken

out with a stiff brush

Beat together the yolks and whites of hree eggs, and when light stir in two cupfuls of milk, three and a half of flour, a pinch of salt, a tablespoonful of ing the hands, and their improvement melted butter and two heaping teaspoonfuls of baking powder. Beat all the while as the several ingredients are added, stir in a pint of blackberries and turn the batter into a greaged mould. It, live, and be merry. Fish and oysters cover closely and steam in a kettle of boiling water for three hours.

Rapid eating is slow suicide. Eat slow-live, and be merry. Fish and oysters are easily digested. An hour should be given to dinner, and one or two hours

## Cheap Silk Waist. special sale of silk waists up in

Shoppersville, the woman with a little money, say \$3 or \$13, will be able to get something very nice. The models are after the so-called French waist, that slightly draped, invisibly fastened and smell.

and most artistically trimmed with bits of lace, knots of silk and soft bands at stant that the system assimilates all the neck and belt. All the silks are the nutriment in a given article of food, good, the colors are "the style," and Some of the elements may not be the arrangement of lace makes them wanted at all. For example, the sev- all becoming-a trick that only the enty-two parts of nutrition contained French artistes master. They are made on lawn lining and warranted to fit, but the economy of nature, than the 960 there is an extra charge of \$1 for bones parts found in wheat. On the basis of The white pineapple silks, sold at \$2.50 or so, are really a temptation. All they need is a stock and ruffle to become a court bodice, to go with a tailor suit. These goods cannot be duplicated at home for the money.

> Market Girls of Paris. Some lovely types of animal beauty

may be found among the dairy, fruit and salad booths of the great "Central Market" of Paris. Here is where artists, sculptors, glass painters and illustrators go for national types and native beauty. The young women are always bareheaded and brown as nuts, but they have a coquetry of their own that is often irresistible. Nothing but satin gould comtake the trouble to investigate they will pare with the gloss they get on their hair. Like Carmen, they have an eye for colors. They wear the roughest of dresses, but under the average is a cus tom-made corset. And such figures! Most of the collars are turned in, and the V-shaped corsage, finished with a treated than in the retail dry-goods firm polse or knot of green, must be seen to be appreciated. Every motion is grace, every article-even the tinfoll lox cheese, the twin artichokes with red buttons in their heads, the peach green leaf a la Venus in her shell-is

# Charcoal Dentrifrices. While the enamel of the teeth is very

artistic.

hard it is, after all, only lime, and any scratch is lable to injure it. Hence the danger of salt, ashes and charcoal that thoughtless people often use. For the sake of a graceful old age, if nothing else, don't use these things. are too precious to b ill-used. )Charcoal is good, there is no denying that, but unless it is properly prepared it will cut the gums, scratch the teeth and injure the health of the mouth. Here is the advice of one of the best dental surgeons in New York, on the subject of charcoal dentifrices. "Eat bread crusts, roll crusts and toast; be sure to chew i well; let the soft bread go to the poor." Light Foods Best for Summer.

## heavy meats and other food material adapted to the colder temperature of Winter. Greasy rich ples and puddings

Heavy desserts are as much to be

avoided during the warm season a

have no proper place in a Summer dietary-if, indeed, they have anywhere or at any season of the year. Light batter pudding may be indulged; but for most palates cold custards, creams and iced desserts are greatly preferred. An Odorous Cosmetie. Stew a few small onions in milk, stir in a little oatmeal, season to taste, and when the vegetables fall apart out of

sympathy for their own tenderness, deyour hot and go to bed. This ablebodied gruel is excellent for the complexion and a good cold cure. Some vegetables render scavenger service to the alimentary canal, and the onion is perhaps the most valuable of this class of foods. The consumer owes it to her fellow-woman to keep her mouth shut while on an onion gruel diet.

To Make the Hair Grow.

Keep the head clean, cool and bare as much as possible. Dandruff is decayed tissue and very unpleasant to: have about. It is the easiest thing in the world to get rid of it. Soap, warm water and hair brushes are sure cures. There is nothing like cleanliness to make the hair grow. If there is not tresses, supply the deficiency. Castor oil, glycerine, palm oil, cocoanut, butthe head is soaked with bay rum ever

grow unless the ground is barren. Green Foods Are Summer Foods. A generous use of vegetables is to be commended and encouraged during the Summer, not only because this is the season of vegetable growth, but because they are well adapted to the requirements of the system at that the one thing should always be borne in mind-no vegetable is wholesome unless

# rather than of health.

Milk of Roses. Milk of roses comes as near being a wrinkle cure as anything in the drug store. To be brutally candid, there is no cure, but the following balm is slightly stringent, and by lightening the skin presses out a few lines. Boil gum benzoin in spirits of wine until a rich tincture forms, or, better still, buy 10 cents' worth of tincture of benzoin. Put a teaspoonful in a glass of water, wash the This gives the skin a sweet smell and

## faded cheeks a bit of bloom. Good Liquid Dentifriess. Here are a few recipes for mouth

washes, warranted harmless and highly recommended for getting a bad taste out of the mouth: Water, 1 pint; aromatic vinegar, 1 teaspoonful; tincture of myrrh, 1-2 ounce; powdered borax, 1-2 ounce. Water, boiled, 1 pint; borax, 1 ounce;

spirits of camphor, 1 teaspoonful; myrrh, 1 teaspoonful. Water, 6 ounces; orange-flower water, 6 ounces; eau de cologne, 6 ounces; gly-

# To Soften the Hands.

Melt a pound of white castile soap over the fire with a little water. When melted, perfume with a drop of ottar of rose and stir in haif a cupful of oatmeal. Use this preparation while wash will be surprising.

# Table Talk.

of rest should follow the meal. Big dir ners may be harmless in Winter, but they are harmful in Summer. Ventilate the Kitchen.

Poorly ventilated kitchens make poor cooks by destroying the sease of taste
